Starting a Family Child Care Home

What is Family Child Care?

Family Child Care is a home-based service where child care is provided in the caregiver's home. The home must be licensed or registered according to county and state laws. Family Child Care is the type of care most often used for young children, especially infants and toddlers. Many family child care homes provide high quality programs for preschoolers, school age children and children with special needs. Family child care is "home away from home" personalized, professional care.

Better Lives Start With Better Beginnings.

What Family Child Care Offers

Income - Earn income while staying at home with your own children and caring for the children of others

Flexibility – Set your own days and hours; some providers offer evening, weekend or odd-hour care

Low Start-Up Costs – You may already own many of the learning materials you need to provide quality care

Nutrition – Participating providers receive partial reimbursement for food costs by serving nutritious meals
