Episcopal Children’s Services History and Mission

Every child deserves a strong start in life. For more than 50 years, Episcopal Children’s Services has helped hundreds of thousands of young children build a solid foundation for success in school and life.

The mission of Episcopal Children’s Services is creating opportunities for the children we serve to reach their full potential.

Creating
We are relentless in perfecting the art and skill of teaching young children to grow intellectually, emotionally, physically and socially.

Opportunities
We build foundations for the future with strong learning environments for children, parent education and teacher enrichment.

The Children We Serve
We serve our community’s most vulnerable children and families, those living in poverty, with high quality early learning as well as comprehensive health and wellness services.

Reach Their Full Potential
Children who enter kindergarten ready to learn have better outcomes for their entire lives. It all begins with quality early learning.

Episcopal Children’s Services delivers the highest quality of services, utilizing data-driven practices that result in demonstrable outcomes. Our young students grow in every aspect of their lives - cognitive, social, emotional, language, literacy, mathematics, creative arts and physical skills. We build strong families with family advocacy. Our meals are nutritious, featuring whole grains, vegetables and low sugar. Our focus on health results in children who are up-to-date on preventive medical and dental care.
Program Description and Enrollment

Episcopal Children’s Services has been a Head Start/Early Head Start provider since 1996, with 21 years of experience.

Since beginning with our first Head Start/Early Head Start grant for Northeast Florida, Episcopal Children’s Services provides Head Start and Early Head Start in 12 counties under 3 different grants.

Early Head Start - Early Head Start provides high-quality educational, nutritional, health and social services to low-income and at-risk children from birth to age 3 and their families. Our goal is to provide a strong foundation for children entering Head Start or other Pre-K programs. Children were enrolled in center-based, home-based, and combination program options to serve the diverse needs of our communities.

Head Start: Our Head Start program reaches out to low-income and at-risk children ages 3 to 5 and their families. We provide them with comprehensive educational, nutritional, health, and social support services, as well as tools and resources to promote their development so they enter kindergarten ready to learn.

Program Locations

Counties Served:
Episcopal Children’s Services provides Head Start and Early Head Start in 12 counties. The list by grant is:

- North Florida - Duval, Clay, Nassau, Baker and Bradford Counties
- Alachua - Marion, Alachua, Citrus, Levy, Gilchrist and Dixie Counties
- Lake - Lake County

North Florida Grant Locations by County:
All North Florida Centers are directly operated by Episcopal Children’s Services

**Baker County**
- Baker Early Head Start
  5222 South 6th Street
  Macclenny, Florida 32063

- Baker Complex
  402 South 8th Street
  Macclenny, Florida, 32063

**Bradford County**
- Starke Head Start and Early Head Start
  1080 North Pine Street
  Starke, Florida 32091

**Clay County**
- Belmont Head Start
  15 Belmont Blvd.
  Orange Park, Florida 32073

- Green Cove Springs Head Start and Early Head Start
  1107 Martin Luther King Blvd.
  Green Cove Spring, Florida 32042

- Middleburg Head Start and Early Head Start
  2225 Blanding Blvd.
  Middleburg, Florida 32068

**Duval County**
- Northside Early Head Start
  1070 West 18th Street
  Jacksonville, Florida 32009

- Westside Early Head Start
  2648 West 5th Street
  Jacksonville, Florida 32254

**Nassau County**
- Callahan Head Start and Early Head Start
  45089 Third Avenue
  Callahan, Florida 32011

- Fernadina Head Start
  516 South 10th Street
  Fernadina Beach, Florida 32034
Alachua Grant Locations by County:

Explanation of Revenue Sources

Episcopal Children’s Services receives funding for the Head Start and Early Head Start programs primarily from the US Department of Health and Human Services Office of Head Start. Additional revenues come from:

- **Transfer of Property:** When a new grant is received, property is transferred from the previous grantee.
- **Cash donations:** Donations from individuals and foundations can help provide program enhancements that would not otherwise fit into the budget.
- **Voluntary Prekindergarten (VPK):** The VPK program is a state-funded initiative that provides a framework and subsidy for an early educational program during children’s year prior to kindergarten. ECS Head Start 4-year-olds are enrolled in the VPK program.
- **In kind:** In kind donations come from a very wide range of sources, including parents who volunteer their time, health professionals who provide information to parents and staff, and community volunteers who help govern our programs.
- **Other:** Miscellaneous sources of revenue
- **ERATE:** Discounts for schools for telecommunications and internet access.

Expenses are broken out by general categories.
Episcopal Children’s Services focuses on our community’s most vulnerable children and pregnant women.

We serve a wide mix of ages to support our community.

We intentionally focus on our community’s children and pregnant women who are most at risk.
We work diligently to ensure our children receive preventive, well-care for medical needs, immunizations to protect against disease and oral health.

Nutrition: Because access to proper nutrition is often limited for low-income children, we provide two full meals plus a snack every day. Our menus are approved by a registered dietician and meet the cultural, developmental and nutritional needs of each age group. Well-nourished children are healthier, more attentive and have better mental performance.

Meals served in the last year: 467,411
Community Engagement

The Episcopal Children’s Services Head Start and Early Head Start program promotes involvement and engagement from parents and the community.

- **Parent engagement**: Parents are provided with a number of opportunities to increase their involvement and engagement with their children, both inside and outside of the classroom. ECS staff hold monthly gatherings at each center for parents to participate. Often these meetings include educational components to help improve parenting skills and knowledge. All ECS centers also provide parent involvement opportunities directed towards fathers and father figures to promote the importance of male influences on at-risk children. The Head Start and Early Head Start programs are governed in part by a representative board of Head Start and Early Head Start parents, and all major program decisions must be approved by this board. Finally, parents provide a large percent of program volunteer in-kind support.

- **Volunteer support**: Head Start and Early Head is a program that best thrives with community involvement. Community involvement is important to successful program activities, and allows ECS to be responsive to the unique qualities of the different areas we serve.
School Readiness

The Episcopal Children’s Services Head Start program is committed to ensuring that children are prepared for kindergarten, despite the challenges they face. Episcopal Children’s Services has extensive systems in place to help children get ready for school.

Assessments: Episcopal Children’s Services uses a range of assessments as identified in the following analysis to determine children’s progress at various intervals throughout the year. In general, children are assessed at the beginning and end of the school year. In many instances children are assessed at midyear as well to determine their improvement.

Application of data: Teachers use data from assessments to individualize instruction for children so that each receives the appropriate intervention for his/her development level. ECS additionally reviews data by classroom and by center to better understand the unique needs of teachers and center managers.

Placement of data in TA Plan and Self-Assessment: Each year Episcopal Children’s Services utilizes findings from the outcomes analysis to guide how we improve our programs. Needs identified from assessments are addressed by providing additional training and programmatic support for teachers and coaches.

- Teacher and Education Staff used the Teaching Strategies GOLD Teacher Resources to plan and execute high quality, individualized lesson plan.
- Early Childhood Specialists (classroom coaches) conducted demonstrations and observations focusing the results of Child Outcomes and Classroom Assessments that measure the quality of teacher and child interactions.
- Training on encouraging higher order thinking skills to develop concepts and language were a focus.
School readiness goals and analysis: There was improvement overall in all of the school readiness domains assessed. These scores are all improvements over pretest results. ECS’s school readiness goals and results are as follows:

Teacher training: The program also works to improve the quality of instruction though continuous training. Episcopal Children’s Services provides coaching and training in domains shown to improve children’s development including emotional support, classroom organization, and instructional support. We use the CLASS assessment at various intervals throughout the year to evaluate teachers’ skills.

Kindergarten transition: Episcopal Children’s Services is committed to ensuring that our children are prepared for kindergarten. In addition to working with children and families to promote children’s development, we also provide supports to children as they leave our program at five years old. Episcopal Children’s Services partners with the Local Education Agencies of each of the counties where our centers are located to develop a transition plan in which children are introduced to the schools they will be attending, and important information about the child is shared with the kindergarten teachers. We also provide training to kindergarten teachers about the needs of high risk children who come from Head Start. Each county’s School Readiness and Transition Committee make goals, including special events, two-way communication, family support and meeting the needs of the individual child. Community members and representatives for the local elementary school collaborate to ensure a smooth transition.
