For example, "The girls is standing under the umbrella, the bird is sitting in the tree."</p>	<p>Name Parts of the Body: With your toddler sitting in your lap take to them about their body parts and what it is used for. Example: eyes, hands, leg, eyes, feet, mouth, etc.</p> 	<p>Hat Count: Count the hats you have found in the house. Pick up the hats one by one as you count or you can point to each one. Take your time so that your toddler can join you. You can also talk about the shape, size, color, etc. of each hat.</p>	<p>Up and Down, Side to Side: Get a stuffed animal or small toy to play this activity with your toddler. Have your toddler sit in a chair (if you can). Place the animal in different positions around them and talk about it. The animal is on top of your head, the animal is under your chair, etc. Please help them repeat the positions with you.</p>

Walk up and down one step at a time. If you don't have stairs practice with a step stool and have your child practice going up and down.</p>	<p>Let's be Kangaroos: Use the lines in the sidewalk or place a washcloth on the floor to jump over like a kangaroo. Show your toddler how to jump with both feet together and see how far each of their kangaroo jumps are.</p>	<p>Clean Up!: As your toddler walks around the house have them help you clean up. Have them help by squatting and bending to pick up objects and putting them away. This will help them build balancing skills as they help you clean up.</p>	<p>Jumping and Climbing: Provide items from your home for your toddler to jump over and climb on safely.
